LAND LEVELER

Break Even with Land Levelers

These rugged scrapers come in a range of sizes from 8 to 12 feet to fit your needs and your equipment. Standard on all models is our 1/2 inch thick reversible hardened cutting edge, ready to smooth out the bumps and fill in the hollows. Cutting depth is controlled by a 3" x 8" hydraulic cylinder so you can decide how much of a bite to take and adjust on the go.

Hydraulic tilt models use a spindle and tandem tube design together with a 3" x 6" cylinder. This provides up to 10° of tilt each way. Hydraulic tilt models are also equipped with a swivel hitch to help prevent binding at the hitch when the blade is tilted. This not only helps you smooth out the bumps but also helps put the perfect finish on your grade.

- 1/2" x 6" reversible hardened cutting edge
- Equipped with a 10" jack or 15" available on request
- All models have 3" x 8" hydraulic lift cylinder
- Tilt models use 3" x 6" cylinder to tilt 10° each way
- Tilt models equipped with a swivel hitch
- Greasable pins on lift arms
- Comes with 9.5L tires

Model	Width	Tilt	Height	Length	Weight (LBS.)
LLR-8	8'	-	32"	97"	1,290
LLT-8	8'	10°	32"	97"	1,332
LLR-10	10'	-	32"	121"	1,460
LLT-10	10'	10°	32"	121"	1,660
LLR-12	12'	-	32"	145"	1,630
LLT-12	12'	10°	32"	145"	1,830
