

STACK N FOLD TOOLBAR

The **Stack N Fold Toolbar** from MK Martin is designed to provide safe and easy transport of Strip Cat strip till systems. By stacking both end sections over the center section, the Stack N Fold Toolbar quickly reduces the overall width providing easier transport from field to field. The over centre design and locking pins ensure that the end sections remain securely in place during travel and when in storage.

Stack N Fold Toolbars can be configured with 2 to 4 remotes allowing you to control each side of the toolbar separately. This allows for easier service and maintenance, as well as for custom operations when you may not need the full width of the Strip Cat such as on headlands and point rows.

Features

- Available for 8-Row to 18-Row strip till units
- Allows for parallel horizontal stacking of row units
- Ideal for transport and storage
- Equipped with 2 large cylinders (5x30 fold cyl.)
- Equipped with 2 small cylinders (2x4)
- Requires 2 to 4 remotes depending on configuration

SCIC1700

The **Implement Caddy** by MK Martin converts your 3PH implements to trailed versions when access to a 3PH equipped unit is not available. This alternative to conventional 3PH mounting allows greater flexibility over your work force.

The SCIC1700 hydraulically raises or lowers implements just like a 3PH ensuring optimal operation of equipment. When required an optional weight box helps to offset the implement reducing lift at the tractors hitch.

** SCIC1700 Shown with optional weight box*

Model	SCIC1700
Width	152"
MAX HP	500
Weight (LBS.)	7,750
Lift Cyl.	5 x 14
Lift Capacity (LBS.)	20,000
Category	CAT. 4
Tires	16.5 x 16.1
