Extreme Duty Grader Blade

Model shown with optional wheel kit.

Images Shown with optional wheel kit (incl. cylinder).

The Extreme Duty Grader Blade from MK Martin mounts to your tractors 3-point hitch. Powered by your tractors hydraulics the XD series blade has hydraulic cylinders to adjust the offset of the arm, the blade angle, and the tilt of the blade. An additional hydraulic cylinder on the optional wheel kit helps to control how much the blade bites.

The Extreme Duty grader blade is available in 8', 9' and 10' models for tractors with a rated horsepower of 100 and 150 hp.

Available options include dual guage wheel kit with hydraulic cylinder.
